EDUCATION

2014 - 2019

BS Electronics Engineering

Saint Louis University
(Baguio City, Philippines)

- Dean's lister for a total of 8 semesters

SKILLS

Development

HTML, CSS, JavaScript, Typescript, Astro

React, NextJS, RemixJS

Material UI, Tailwind, Redux, Prisma, Zod

NodeJS, Kotlin, Spring Boot, PosgreSQL

Design

Figma

Adobe Photoshop

Response Web Design

Others

Agile Methodology

Version Control (Git)

Vercel, PlanetScale

LICENSES

2019

Electronics Engineer

Philippine Professional Regulation Commission

2019

Electronics Technician

Philippine Professional Regulation Commission

CERTIFICATIONS

2021

Testing React with Jest and Testing Library

Udemy

2020

Modern React with Redux

Udemy

KEVIN VON ERICH D. PEREDO
FULLSTACK DEVELOPER

A fullstack developer with four years of experience in building and maintaining performant and responsive web applications. Proficient in languages like HTML, CSS, JavaScript, React.JS, Typescript, NextJS, and NodeJS and general processes in software development. Passionate in building elegant and functional UI interfaces and exploring bleeding edge technologies.

EMPLOYMENT HISTORY

Software Engineer - Tech Lead
Lexagle Inc.

November 2023 - Present

- Lead and mentor a team of software engineers in the design, development, and maintenance of features and optimizations for the Lexagle platform
- Facilitate all aspects of sprint ceremonies, ensuring seamless coordination and communication within the team. Manage sprint planning, review, retrospective, and daily stand-up meetings to enhance efficiency and collaboration throughout the development process
- Conduct regular code reviews, provide constructive feedback, and enforce coding standards to maintain code quality and foster a collaborative and learning-oriented team environment
- Spearhead the enhancement of the Lexagle design system library, aligning it with the brand identity and ensuring its seamless integration across the entire platform

Junior Software Engineer
Lexagle Inc.

May 2021 - November 2023

- Worked closely with product managers to translate business requirements and user stories into new features and optimizations for the Lexagle platform and UI/UX designers to translate mockups and prototypes to working UI interfaces
- Designed, implemented, and maintained a design system library, based on the Lexagle's brand identity, which is used throughout the platform
- Performed bug fixes and code reviews, participated in the product development cycle, and collaborated with team members to implement features and changes to the web application

Software Engineer
SQREEM Technologies Pte.

Feb 2020 - April 2021

- Designed and developed performant web applications, based on design wireframes, for commercial and internal use, using both open-source and proprietary web technologies
- Used skills in debugging to check, refactor and optimize codebases to enhance user experience of web applications
- Suggested trending and tested web technologies that could minimize development time, optimize existing applications, and provide efficient web development

PROJECTS

Astro Personal Portfolio

March 2023

- An Astro-based web portfolio. Technologies and tools used are React, Astro, Tailwind and Zod.

NextJS Personal Portfolio

March 2021

- A Next.js personal portfolio. Technologies and tools used are Next.js, React, Typescript, Framer Motion and CSS Modules.

Noterist

Sept 2020

- A note-taking app using React and Redux, designed in Figma, and deployed using Firebase
